I actually thought I commented that I was curious as to whether the mitigation they proposed used up the entire mit tract?

Kelly,

I was looking at a draft of letter #6 so the numbers must have changed. Sounds like you're comfortable with the numbers so I'm good to go.

Phil will be on vacation starting today and all next week. Not sure if he's checking emails this morning. If we don't hear from him by lunchtime I'd say let's go ahead and finalize.

Tressa,

I didn't see any comments from Phil but maybe he isn't planning on commenting?

Matt: I'm fine with your grammatically edits, but I'm unclear on your comment regarding the impact numbers. I looked back at the previous (6<sup>th</sup>) letter and it appears the final pdf we sent out had identical numbers.
